For Immediate Release

Fitting-out work at International Commerce Centre

(Hong Kong, September 23, 2009) The management office of International Commerce Centre has informed tenants that fitting-out work on some floors of the building with temporary occupation permits will resume tomorrow (September 24).

The work will include tests of the electrical and mechanical systems, which are standard procedure to ensure that the systems are functioning properly before tenants move in. They may entail some discharge of smoke, but will not affect tenants' operations.

Fitting-out work on other floors covered by temporary occupation permits will resume gradually after a safety audit has been conducted, and regular maintenance will also resume later this week. Construction in the area of the recent accident remains suspended.

環球貿易廣場內部裝修工程

(香港，二零零九年九月二十三日) 環球貿易廣場管理公司已於日前知會各租戶，環球貿易廣場將於明日(9月24日)起，於個別已獲發臨時入伙紙的樓層，恢復內部裝修工程，包括機電系統測試。

機電系統測試是樓層正式移交租戶前的例行步驟，以確保機電系統運作正常，測試期間或會產生少量煙霧，但不會對租戶造成影響。

其他已獲發臨時入伙紙的樓層，將於安全稽核完成後，陸續恢復內部裝修，而定期維修保養工作亦會於本周內恢復。至於早前發生意外的施工地盤範圍則維持停工。
